Sole Proprietor.

Political Speculation.

Albany, N. Y., Sept. 23.—The belief is gaining ground here that Governor Black has gone to Washington to consult with President McKinley with reference to succeeding Secretary Alger.

Stole the Evidence.

Bridgeport, Ct., Sept. 23.—Some one broke into the house of Mrs. Guilford last night and it is supposed stole incriminating evidence against Harry Guilford, who has been arrested for complicity in the murder of Miss Emma Gill, whose body was found in the Yellow mill pond on the 12th.

Was Hypnotized.

Denver, Sept. 23.—Stanley E. George, son of one of the wealthiest bankers of Meridian, Miss., was arrested today for breaking open the poor box at St. Mary's cathedral. He gave a false name, but was recognized by a newspaper man from the south. He says he was under the influence of hypnotism, as he did not need the money.

Stricter Quarantine.

New Orleans, Sept. 23.—The state board of health has ordered a strict quarantine by the whole state against New Orleans and Franklin because of the yellow fever here and at Franklin. There are no new cases here today. The quarantine is working the usual hardships on the wholesale merchants, and is causing much dissatisfaction among the merchants of neighboring cities. One case has been reported from Houma, La.

Dr. Souchon has issued the following supplementary notice regarding Atlanta freight regulations:

In view of the present small degree of infection in New Orleans which is known to be confined to residences far from the business centers I have decided on the following interpretation of the Atlanta freight regulations: The phrase infected locality does not refer to the wholesale commercial houses, which are net in an infected locality, and all goods packed and shipped from these houses except goods manufactured and handled in this city in scattered premises, may be certified to and accepted for shipment on proper disinfection of the outside of the container. When goods are offered for shipment from localities that are contiguous to the residence portion of the city, or from houses, part of which are to be occupied as dwellings, the goods must first be disinfected before they can be accepted for shipment.

H. R. Carter, surgeon general United States marine hospital, indorsed this notice as follows:

"I give my hearty indorsement to the opinion that shipments of goods from the wholesale districts of New Orleans will not, under existing conditions, convey infection. Inspectors of United States marine hospital service will be governed accordingly."

Thanks Prof. Blake.

Lawrence, Kan., Sept. 22.—Prof. L. I. Blake has received a reply to a letter he sent after the sea fight at Santiago to Admiral Winfield S. Schley. The letter was delayed in transmission. Admiral Schley and Prof. Blake are personal friends. Schley was in command of the coast survey work in New York city, while Prof. Blake was at work on the fog signal invention and his sea telephone experiments, under the direction of the United States government. The letter from Admiral Schley follows:

Flagship Brooklyn, Guantanamo Bay, Cuba, July 31, 1898.—My Dear Professor: Your kind letter does me more honor than I deserve for my part of the great victory of July 3. To my comrades, whose work made the result so complete, is due most of the glory. The principal satisfaction which comes to me is that I was present to help those who did so much for our country on that occasion, and the love and admiration of our people will be the best garland of that victory to all. For that will endure always. Thanking you again for your letter, I am always, very sincerely yours,
W. S. SCHLEY.

Voting Contest.

So far the only candidate for our scholarship contest is Dennis Coleman, and he is piling up his votes in good shape, adding 94 votes today.

Reduced Rates.

The Gulf and Interstate will sell round trip tickets on Saturday and Sunday to High Island for one fare for the round trip, good to return Monday and Tuesday, 26th and 27th.

Has Arrived.

The natural born Doctor, Euclid Brittain, is in the city and can be consulted at his office at the Nash house. The doctor has great success with all chronic diseases, as evidenced from the many testimonials of Texas citizens. His office hours are from 9 a. m. to 5 p. m.

Miss Willie Cooper received this morning a certificate showing that she had been made sponsor of company M, Fourth Texas, from Comanche, now in camp at Camp Tom Ball. Miss Willie is highly elated over being appointed sponsor, especially to a company so far from home. Little were we surprised, as she is one of the most popular young ladies in the Lone Star state.

Had Convulsions.

Jim Burns, a laborer, who had just been turned out of the calaboose, where he had been incarcerated for drunkenness, fell on the sidewalk in front of Hirsch's beer hall this morning. After some time a physician, Dr. Barr, was found and administered some temporary relief, after which he turned him over to Dr. Gilder, the county physician.

Has Returned.

Mlle. Jeannette Stengele returned yesterday morning from the east, where she went to purchase her fall and winter stock of millinery. While in St. Louis she employed an expert trimmer, who will be here by the train about tomorrow morning in millinery and the goods will arrive in a few days. Regarding her trip she said that it was so very warm while she was in New York that she did not get as much enjoyment out of the trip as usual.

Another Rough Rider.

Johnnie Reagan, one of Beaumont's two representatives in Roosevelt's now famous regiment of Rough Riders, has returned to his home and will again be seen in his usual mode of life. Mr. Reagan is very modest about the trip he has been on, and speaks in the highest terms of all the officers in the Rough Riders. The only objection he has was that troop H wasn't in the command that went to Cuba. He says:

"From what I have been able to gather from the boys who did get to go to the front is, that the weather in Cuba wasn't any more severe on the troops than the weather we had to stand in Tampa. You know we had four troops left behind to care for the 800 horses, and at one time we had over sixty men sick in our troop, though we didn't complain. Even while we were in New York when the people would ask us how we were treated we would say, if anything at all, 'The only objection we have is that we were among the boys who were left at home.'"

Mr. Reagan is very much in love with Colonel Roosevelt, as are all of the men who served under him, and, from the demonstration that was made in New York city, is confident that he will get the nomination for governor.

While in New York city Mr. Reagan went around to see Mr. Kountze, and while there met one of Mr. Kountze's sons; also Mr. Davidson, who was in New York at that time. Mr. Kountze invited Mr. Reagan to stay and go to dinner with the party, but being in his Rough Rider uniform he said, "I hardly think that I am prepared to enter such a place," whereupon Mr. Kountze looked at him and said: "You are the best dressed man in New York with the exception of the other Rough Riders."

On his return to Texas Johnny stopped at Niagara Falls.

If you have a house to rent see Junker. He has several applicants.

Seasonable Specialties.

Absolutely pure Canada
Sup Maple Syrup and Sugar.
New Louisiana Sirop de
Batterie.
Wheatena, a complete
food.
Silver Cord seeded Raisins.
